## ABOUT US

At Super Rock Global, we've built our reputation on three foundational pillars that define everything we manufacture and deliver: Superior Quality, Trusted Reliability & Service Excellence. With decades of combined engineering expertise and a relentless commitment to innovation, we deliver drilling solutions specifically engineered to maximize productivity, enhance operator safety, ensure environmental compliance, and deliver exceptional return on investment across the most challenging drilling environments globally. Our journey began with a singular vision: to revolutionize the drilling equipment industry by combining cutting-edge hydraulic technology, robust mechanical engineering, and intelligent control systems into drilling platforms that operators could trust to perform reliably in the world's most demanding conditions from deep mining operations in Africa to water well projects in rural India, from foundation drilling in urban infrastructure projects to geothermal exploration in volcanic regions.

- Super Rock Global's drilling equipment operates successfully running globally, supporting mining, municipal water supply, infrastructure, and energy exploration projects.
- We are committed to continuous innovation, sustainable drilling practices, and customer success.
- This dedication makes us a trusted partner for drilling companies, contractors, construction firms, and government agencies seeking reliable, high-performance solutions.

## Drilling Tools & Accessories

**SUPER ROCK GLOBAL** DRILLING TOOLS ARE THE BEST IN MARKET WITH ITS QUALITY, DURABILITY AND IN MARKET BEST PRICE.

### DTH Hammers

We manufacture DTH HAMMERS of wide range in Size from 3" – 12", Used for Water Well Drilling, Mining & Construction applications. These Hammers are manufactured with high quality alloy steels, and accurate machining process with heat treatment, which makes the Hammers perform the best in any hard formations.

### DTH Button Bits

We manufacture DTH Button Bits of wide range in Size from 3" – 20", Suitable for all types of DTH Hammers respectively. These Drill Bits are manufactured with high quality alloy steels, forged & heat treated, the high grade Tungsten Carbide Buttons inserted in the bits can perform the best drilling operations and give long lasting Life.

### Drill Rods

We manufacture Drill Rods of wide range in Size from 3" – 5.5", Used for Water Well Drilling, Mining & Construction applications. The Drill Rods are manufactured with high quality steel Pipes Friction welded and Hardened with male and female adaptors, The connection joints are API Standard Threads. The Accurate Process and Quality makes the Drill Rods to perform a long lasting life.

## Drilling Tools & Accessories

**SUPER ROCK GLOBAL** DRILLING TOOLS ARE THE BEST IN MARKET WITH ITS QUALITY, DURABILITY AND IN MARKET BEST PRICE.

### Cluster Hammers

We manufacture Cluster Hammer of Sizes from 800mm – 1200mm (31"–47") for Construction Piling applications. These Hammers are manufactured with high quality alloy steels, and accurate machining process with heat treatment. The Top Adaptor shall be suitable for Kelly or with Api threaded connection.

### Core Drilling Accessories

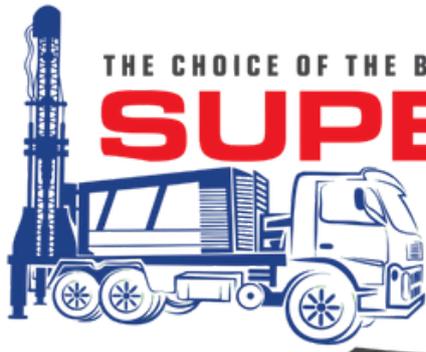

We Supply high quality core drilling accessories like Rods, Casings, Core Barrels, Diamond Core bits, Core Catcher etc. From a range like AQ, BQ, NQ, HQ, PQ. All these are manufactured with high quality alloy steels, forged & heat treated to perform the best core drilling operations with long lasting Life.

### Rotary Drilling Bits

We Supply high quality Rotary bits used for Mud Rotary Drilling application like Tricone Rock Roller Bits of Tungsten Carbide button and Milled tooth Sealed Bearing and open bearing type. Drag Bits of different sizes. The Connecting adaptors with API thread standards
